REQUEST FOR QUOTATION (RFQ)
REFERENCE NUMBER: PASA-RFQ-2025-31

1. INTRODUCTION

Petroleum Agency SA (herein referred to as the “Agency” or “PASA”) is a state-owned company involved in the search for appropriate energy solutions to meet the energy needs of South Africa and the sub-Saharan African region. It also manages the operation and development of the oil and gas assets of the South African government. The company falls under the auspices of the Department of Mineral Resources and Energy (DMRE). For more information on the company, you can visit our current website: www.petroleumagency.co.za.

2. BACKGROUND AND DELIBERATION

The current Veeam Data Platform Essentials Enterprise Plus subscription, which runs from March 2022 to March 2025, provides essential data backup and recovery features for PASA’s ICT infrastructure. Veeam has now offered an upgrade to the Veeam Data Platform Essentials Universal, which includes fully portable data protection features at the same renewal cost. This upgrade would enhance our current capabilities and better equip the ICT team to meet the evolving demands of data protection.

The Veeam Data Platform Essentials Universal platform provides:

- **Comprehensive Data Protection:** For cloud, physical, and NAS environments, making it a more holistic solution for PASA’s ICT infrastructure
- **Portability:** Veeam Data Platform Essentials Universal licenses are portable across different environments, which offers greater flexibility in managing PASA’s ICT landscape
- **No Additional Cost:** The upgrade comes at no extra charge beyond the existing subscription renewal cost, which makes it a cost-effective way to enhance the data protection capabilities without exceeding the allocated budget.

Given the increasing reliance on hybrid cloud environments and the growing need for robust data protection, upgrading to Veeam Data Platform Essentials Universal would future-proof PASA’s data backup and disaster recovery strategy. This proactive step will enhance operational resilience and ensure preparation for evolving ICT needs
